

BWI Thurgood Marshall Airport Expands Express Parking Lot

Express Parking Offers More Spaces, New Shuttle Buses, and Excellent Value

Responding to high customer demand, Baltimore/Washington International
Thurgood Marshall Airport has expanded its Express Parking Lot by 60 spaces. The expansion was made possible by the recent relocation of the airport's Cell Phone Lot.

Express Parking provides BWI Marshall customers with a high-level parking product, including luggage assistance and "trunk-to-terminal" shuttle service. Customers that park in the Express Parking Lot are picked-up and dropped-off directly at their vehicles. The new spaces bring the total number of Express Parking spaces to 1,385.

"BWI Marshall offers an excellent parking product and an outstanding value for our travelers," said Paul J. Wiedefeld, Chief Executive Officer of BWI Marshall. "The additional spaces for Express Parking will boost the convenience and service offered for our customers."

The BWI Marshall Express Parking Lot is located across from the Airport's large Daily Garage at Terminal Road and Scott Drive, about one block from Aviation Blvd / Maryland-170. The rate for the Express Parking Lot is a maximum of \$10 per day, including taxes.

Earlier this year, new shuttle buses were put into service for the Express Parking Lot. The 11 low-floor shuttle buses offer convenient, comfortable service for BWI Marshall customers.
